

ALCANTARA + DYNAMICA

SYNTHETIC MICROFIBER FABRIC

AUTOMOTIVE

INTERNAL
MARINE

Our genuine ALCANTARA is a premium product that is 100% automotive grade with UV protection. Available in a core range of colours in both cover and panel finishes, both are notorious for their substantial workability and endurance.

PANEL – a single layer that is unbacked with more stretch generally used for panels and headliner.

COVER - predominantly used in seating, the Alcantara cover has a double layer with less stretch giving it more durability.

TECHNICAL SPECIFICATIONS:

Type	Alcantara			
Composition	Synthetic microfiber fabric			
Length	20LM Rolls approximately			
		PANEL	COVER	
Weight	UNI EN 29073-1	240 ± 30	310 ± 40	g/m ²
